It's a non-profit concept project. Some admins and volunteers will be involved in this project who will help to maintain the operation. If the project starts earning, the money will be spent for project costing (Development, Hosting , application related things) and shared honorarium among volunteers based on their contribution and rest charity inside HongKong.

Objective :

Bring a platform where people can post their advertisements (Teaching related Contents) free. Each post will have an expiry date after that automatically set as inactive. The owner of the post will be notified. The owner can repost by clicking active from the admin panel. This procedure is to eliminate orphan posts from websites.

Each post new or reactive will go live after review by volunteers. The minimum condition for a valid post

1. Content should be Teaching related (Education , Gym, Sports , Online Tutorial , Music , swimming etc.)
2. Clear Details about the Course / Class .
3. Consent about his content transparency.

In future there might be addition condition added depends on sitaution and users will be notified while they posting their advertisement.

Admin and volunteers will ensure the post contains the above points , reset they will decide by their own judgement. If for some reason the post is rejected then valuntiers or admin will set the reason. Once the reason is resolved the post can be requested for review again.

Any user who is not a volunteer or admin can report against any post and inform us.

The login process is simple mobile OTP login. If the user already exists then after login the user will redirect to the home page unless the profile page, once the user completes the profile his/her profile will go under review and will be active within 24 hours.

If any reason profile does not meet the standard criteria , users will be notified by SMS. Users can update information and request for multiple rounds of review.

The application consist over 5 pages

1. Landing Page
2. Profile Page
3. Post Page
4. Communication Page
5. Support / Request for Function / Feedback
6. Volunteer profile page

After completion the user process then **landing** page. It is actually a navigation point page for overall application and search post page.
